Validated Integration

JD Edwards
EnterpriseOne

Oracle Validated Integration gives customers confidence that a partner's integration is functionally sound and performs as designed. This can help customers to reduce deployment risk, lower total cost of ownership, and improve the user experience related to the partner's integrated offering.

Out-of-the-Box, Accounts Payable Automation Solution with Real-Time Integration to Oracle's JD Edwards EnterpriseOne

Redfaire's Oracle-based automation solution for accounts payable automates the time-consuming issue resolution and payments approval process.

Company Overview

Redfaire helps companies build leadership positions by leveraging the power of Oracle technology. Specializing in Oracle enterprise resource planning (ERP) solutions—including JD Edwards EnterpriseOne, JD Edwards World, and Oracle ERP Cloud—Redfaire helps large, multinational companies and ambitious small and medium businesses to implement and optimize ERP systems across EMEA. Redfaire helps companies to extend and leverage their ERP systems by using Oracle Middleware to maximize IT agility and efficiency. Redfaire has offices in UK, Ireland, and France and is a founding partner of Redfaire International, Europe's largest JD Edwards consulting partner.

Integration Overview

The Redfaire Accounts Payable (AP) Automation solution provides end-to-end, real-time integration between the Oracle WebCenter AP automation solution—Oracle WebCenter Capture, Oracle WebCenter Forms Recognition, and Oracle WebCenter Imaging—and JD Edwards EnterpriseOne Financials and JD Edwards EnterpriseOne Procurement. The Redfaire AP Automation solution provides access to documents and approvals for ERP and non-ERP users: the collaborative workflows enable users to quickly and easily resolve issues and exceptions to dramatically improve the efficiency of the AP process. Mobility, usability, and real-time integration with JD Edwards EnterpriseOne delivers a great user experience to your AP team.

Integration Details

The Redfaire solution provides an end-to-end AP automation process that includes

- Document capture
- Document recognition available in 23 languages
- Document storage with enhanced storage and search capabilities leveraging Oracle WebCenter Content
- Purchase order-related vouchers management with three-way and two-way match workflows
- Non-purchase-order-related vouchers management

- Real-time integration with JD Edwards EnterpriseOne
- Payment approval workflow

Features and benefits of the Redfaire AP Automation solution include:

- Leverages and adds value to your current ERP investment.
- Is built with Oracle technology and based on Oracle best practices.
- Removes content silos and manages single-source documents, images, and records.
- Manages the end-to-end enterprise content lifecycle and brings content directly to where users work.
- Improves process efficiency by removing data entry errors.
- Reduces processing costs and time via automated approval workflows and real-time data validation.
- Reduces overpayments, late fees, and missed early payment discounts.
- Strengthens financial controls.
